# THE BELL SYSTEM TECHNICAL JOURNAL

VOLUME XV, 1936

## Table of Contents

### JANUARY, 1936

Long-Wave Radio Transmission Phenomena Associated with a Cessation of the Sun's Rays— <i>Austin Bailey and A. E. Harper</i>	1
The Corrosion of Metals—I. Mechanism of Corrosion Processes— <i>R. M. Burns</i>	20
Magnetic Measurements at Low Flux Densities Using the Alternating Current Bridge— <i>Victor E. Legg</i>	39
The Present Status of Ferromagnetic Theory— <i>R. M. Bozorth</i>	63
Some Equivalence Theorems of Electromagnetics and Their Application to Radiation Problems— <i>S. A. Schelkunoff</i>	92
Magnetic Alloys of Iron, Nickel, and Cobalt— <i>G. W. Elmen</i>	113
Improvements in Communication Transformers— <i>A. G. Ganz and A. G. Laird</i>	136
Technical Digests—	
1. Measurement of Telephone Noise and Power Wave Shape— <i>J. M. Barstow, P. W. Blye and H. E. Kent</i>	151
2. On the Correlation of Radio Transmission with Solar Phenomena— <i>A. M. Skellett</i>	157
3. Eclipse Effects in the Ionosphere— <i>J. P. Schafer and W. M. Goodall</i>	162
4. Earth Resistivity and Geological Structure— <i>R. H. Card</i>	167

APRIL, 1936

The Reliability of Short-Wave Radio Telephone Circuits— <i>R. K. Potter and A. C. Peterson, Jr.</i>	181
Spontaneous Resistance Fluctuations in Carbon Microphones and Other Granular Resistances— <i>C. J. Christensen and G. L. Pearson</i>	197
Contemporary Advances in Physics, XXX—The Theory of Magnetism— <i>Karl K. Darrow</i>	224
The Proportioning of Shielded Circuits for Minimum High- Frequency Attenuation— <i>E. I. Green, F. A. Leibe and H. E. Curtis</i>	248
Hyper-Frequency Wave Guides—General Considerations and Experimental Results— <i>G. C. Southworth</i>	284
Hyper-Frequency Wave Guides—Mathematical Theory— <i>John R. Carson, Sallie P. Mead and S. A. Schelkunoff</i>	310
A Magneto-Elastic Source of Noise in Steel Telephone Wires— <i>W. O. Pennell and H. P. Lawther</i>	334
An Extension of Operational Calculus— <i>John R. Carson</i>	340
Technical Digest— Determination of the Corrosion Behavior of Painted Iron and the Inhibitive Action of Paints— <i>R. M. Burns and H. E. Haring</i>	343

JULY, 1936

A Laplacian Expansion for Hermitian-Laplace Functions of High Order— <i>E. C. Molina</i>	355
The Relation Between Penetration and Decay in Creosoted Southern Pine Poles— <i>R. H. Colley and C. H. Amadon</i>	363
Tandem Operation in the Bell System— <i>F. M. Bronson</i>	380
A Non-Directional Microphone— <i>R. N. Marshall and F. F. Romanow</i>	405
Oscillations in Systems with Non-Linear Reactance— <i>R. V. L. Hartley</i>	424
Oscillations in an Electromechanical System— <i>L. W. Hussey and L. R. Wrathall</i>	441
A New Type of Underground Telephone Wire— <i>D. A. Quarles</i>	446
Technical Digests— Effect of Electric Shock on the Heart— <i>L. P. Ferris, B. G. King, P. W. Spence and H. B. Williams</i>	455
A New High-Efficiency Power Amplifier for Modulated Waves— <i>W. H. Doherty</i>	469

OCTOBER, 1936

Microchemical and Special Methods of Analysis in Communication Research— <i>Beverly L. Clarke and H. W. Hermance</i> . . . . .	483
Switchboards and Signaling Facilities of the Teletypewriter Exchange System— <i>A. D. Knowlton, G. A. Locke and F. J. Singer</i>	504
A Transmission System for Teletypewriter Exchange Service— <i>R. E. Pierce and E. W. Bemis</i>	529
A New Telephotograph System— <i>F. W. Reynolds</i> . . . . .	549
Equivalent Networks of Negative Grid Vacuum Tubes at Ultra-High Frequencies— <i>F. B. Llewellyn</i> . . . . .	575
Forces of Oblique Winds on Telephone Wires— <i>J. A. Carr</i> . . . . .	587
Corrosion of Metals—II. Lead and Lead-Alloy Cable Sheathing— <i>R. M. Burns</i>	603
Technical Digest— Reduction of Airplane Noise and Vibration— <i>C. J. Spain, D. P. Loye and E. W. Templin</i>	626

## Index to Volume XV

### A

- Alloy: Corrosion of Metals—II. Lead and Lead-Alloy Cable Sheathing, *R. M. Burns*, page 603.  
 Alloys, Magnetic, of Iron, Nickel, and Cobalt, *G. W. Elmen*, page 113.  
*Amadon, C. H. and R. H. Colley*, The Relation Between Penetration and Decay in Creosoted Southern Pine Poles, page 363.  
 Amplifier for Modulated Waves, A New High-Efficiency Power (a Digest), *W. H. Doherty*, page 469.

### B

- Bailey, Austin and A. E. Harper*, Long-Wave Radio Transmission Phenomena Associated with a Cessation of the Sun's Rays, page 1.  
*Barstow, J. M., P. W. Blye and H. E. Kent*, Measurement of Telephone Noise and Power Wave Shape (a Digest), page 151.  
*Bemis, E. W. and R. E. Pierce*, A Transmission System for Teletypewriter Exchange Service, page 529.  
*Blye, P. W., J. M. Barstow and H. E. Kent*, Measurement of Telephone Noise and Power Wave Shape (a Digest), page 151.  
*Bozorth, R. M.*, The Present Status of Ferromagnetic Theory, page 63.  
*Bronson, F. M.*, Tandem Operation in the Bell System, page 380.  
*Burns, R. M.*, The Corrosion of Metals—I. Mechanism of Corrosion Processes, page 20.  
*Burns, R. M.*, Corrosion of Metals—II. Lead and Lead-Alloy Cable Sheathing, page 603.  
*Burns, R. M. and H. E. Haring*, Determination of the Corrosion Behavior of Painted Iron and the Inhibitive Action of Paints (a Digest), page 343.

### C

- Cable Sheathing, Lead and Lead-Alloy. The Corrosion of Metals—II, *R. M. Burns*, page 603.  
 Carbon Microphones and Other Granular Resistances, Spontaneous Resistance Fluctuations in, *C. J. Christensen and G. L. Pearson*, page 197.  
*Card, R. H.*, Earth Resistivity and Geological Structure (a Digest), page 167.  
*Carr, J. A.*, Forces of Oblique Winds on Telephone Wires, page 587.  
*Carson, John R.*, An Extension of Operational Calculus, page 340.  
*Carson, John R., Sallie P. Mead and S. A. Schelkunoff*, Hyper-Frequency Wave Guides—Mathematical Theory, page 310.  
*Christensen, C. J. and G. L. Pearson*, Spontaneous Resistance Fluctuations in Carbon Microphones and Other Granular Resistances, page 197.  
*Clarke, Beverly L. and H. W. Hermance*, Microchemical and Special Methods of Analysis in Communication Research, page 483.  
*Colley, R. H. and C. H. Amadon*, The Relation Between Penetration and Decay in Creosoted Southern Pine Poles, page 363.  
 Contemporary Advances in Physics, XXX—The Theory of Magnetism, *Karl K. Darrow*, page 224.  
 Corrosion of Metals, The—I. Mechanism of Corrosion Processes, *R. M. Burns*, page 20.  
 Corrosion of Metals—II. Lead and Lead-Alloy Cable Sheathing, *R. M. Burns*, page 603.  
 Corrosion Behavior of Painted Iron and the Inhibitive Action of Paints, Determination of the (a Digest), *R. M. Burns and H. E. Haring*, page 343.  
*Curtis, H. E., E. I. Green and F. A. Leibe*, The Proportioning of Shielded Circuits for Minimum High-Frequency Attenuation, page 248.

D

- Darrow, Karl K.*, Contemporary Advances in Physics, XXX—The Theory of Magnetism, page 224.  
*Doherty, W. H.*, A New High-Efficiency Power Amplifier for Modulated Waves (a Digest), page 469.

E

- Earth Resistivity and Geological Structure (a Digest), *R. H. Card*, page 167.  
 Eclipse Effects in the Ionosphere (a Digest), *J. P. Schafer and W. M. Goodall*, page 162.  
 Electromagnetics and Their Application to Radiation Problems, Some Equivalence Theorems of, *S. A. Schelkunoff*, page 92.  
 Electromechanical System, Oscillations in an, *L. W. Hussey and L. R. Wrathall*, page 441.  
*Elmen, G. W.*, Magnetic Alloys of Iron, Nickel, and Cobalt, page 113.  
 Equivalence Theorems of Electromagnetics and Their Application to Radiation Problems, Some, *S. A. Schelkunoff*, page 92.

F

- Ferris, L. P., B. G. King, P. W. Spence and H. B. Williams*, Effect of Electric Shock on the Heart (a Digest), page 455.  
 Ferromagnetic Theory, The Present Status of, *R. M. Bozorth*, page 63.  
 Frequency Attenuation, Minimum High-, The Proportioning of Shielded Circuits for, *E. I. Green, F. A. Leibe and H. E. Curtis*, page 248.  
 Frequency Wave Guides, Hyper-—General Considerations and Experimental Results, *G. C. Southworth*, page 284.  
 Frequency Wave Guides, Hyper-—Mathematical Theory, *John R. Carson, Sallie P. Mead and S. A. Schelkunoff*, page 310.  
 Frequency: Oscillations in an Electromechanical System, *L. W. Hussey and L. R. Wrathall*, page 441.  
 Frequency: Oscillations in Systems with Non-Linear Reactance, *R. V. L. Hartley*, page 424.  
 Frequencies, Ultra-High, Equivalent Networks of Negative Grid Vacuum Tubes at, *F. B. Llewellyn*, page 575.

G

- Ganz, A. G. and A. G. Laird*, Improvements in Communication Transformers, page 136.  
 Geological Structure, Earth Resistivity and (a Digest), *R. H. Card*, page 167.  
*Goodall, W. M. and J. P. Schafer*, Eclipse Effects in the Ionosphere (a Digest), page 162.  
*Green, E. I., F. A. Leibe and H. E. Curtis*, The Proportioning of Shielded Circuits for Minimum High-Frequency Attenuation, page 248.

H

- Harper, A. E. and Austin Bailey*, Long-Wave Radio Transmission Phenomena Associated with a Cessation of the Sun's Rays, page 1.  
*Haring, H. E. and R. M. Burns*, Determination of the Corrosion Behavior of Painted Iron and the Inhibitive Action of Paints (a Digest), page 343.  
*Hartley, R. V. L.*, Oscillations in Systems with Non-Linear Reactance, page 424.  
 Heart, Effect of Electric Shock on the (a Digest), *L. P. Ferris, B. G. King, P. W. Spence and H. B. Williams*, page 455.  
*Hermance, H. W. and Beverly L. Clarke*, Microchemical and Special Methods of Analysis in Communication Research, page 483.  
 Hermitian-Laplace Functions of High Order, A Laplacian Expansion for, *E. C. Molina*, page 355.  
 High-Frequency Attenuation, Minimum, The Proportioning of Shielded Circuits for, *E. I. Green, F. A. Leibe and H. E. Curtis*, page 248.  
*Hussey, L. W. and L. R. Wrathall*, Oscillations in an Electromechanical System, page 441.

I

Ionosphere, Eclipse Effects in the (a Digest), *J. P. Schafer and W. M. Goodall*, page 162.

K

*Kent, H. E., J. M. Barstow and P. W. Blye*, Measurement of Telephone Noise and Power Wave Shape (a Digest), page 151.  
*King, B. G., L. P. Ferris, P. W. Spence and H. B. Williams*, Effect of Electric Shock on the Heart (a Digest), page 455.  
*Knowlton, A. D., G. A. Locke and F. J. Singer*, Switchboards and Signaling Facilities of the Teletypewriter Exchange System, page 504.

L

*Laird, A. G. and A. G. Ganz*, Improvements in Communication Transformers, page 136.  
 Laplacian Expansion for Hermitian-Laplace Functions of High Order, *A. E. C. Molina*, page 355.  
*Lawther, H. P. and W. O. Pennell*, A Magneto-Elastic Source of Noise in Steel Telephone Wires, page 334.  
*Legg, Victor E.*, Magnetic Measurements at Low Flux Densities Using the Alternating Current Bridge, page 39.  
*Leibe, F. A., E. I. Green and H. E. Curtis*, The Proportioning of Shielded Circuits for Minimum High-Frequency Attenuation, page 248.  
*Llewellyn, F. B.*, Equivalent Networks of Negative Grid Vacuum Tubes at Ultra-High Frequencies, page 575.  
*Locke, G. A., A. D. Knowlton and F. J. Singer*, Switchboards and Signaling Facilities of the Teletypewriter Exchange System, page 504.  
*Loye, D. P., C. J. Spain and E. W. Templin*, Reduction of Airplane Noise and Vibration (a Digest), page 626.

M

Magnetic Alloys of Iron, Nickel, and Cobalt, *G. W. Elmen*, page 113.  
 Magnetic Measurements at Low Flux Densities Using the Alternating Current Bridge, *Victor E. Legg*, page 39.  
 Magnetism, The Theory of—Contemporary Advances in Physics, XXX, *Karl K. Darrow*, page 224.  
 Magneto-Elastic Source of Noise in Steel Telephone Wires, *A. W. O. Pennell and H. P. Lawther*, page 334.  
*Marshall, R. N. and F. F. Romanow*, A Non-Directional Microphone, page 405.  
*Mead, Sallie P., John R. Carson and S. A. Schelkunoff*, Hyper-Frequency Wave Guides—Mathematical Theory, page 310.  
 Metals, The Corrosion of—I. Mechanism of Corrosion Processes, *R. M. Burns*, page 20.  
 Metals, Corrosion of—II. Lead and Lead-Alloy Cable Sheathing, *R. M. Burns*, page 603.  
 Microchemical and Special Methods of Analysis in Communication Research, *Beverly L. Clarke and H. W. Hermance*, page 483.  
 Microphone, A Non-Directional, *R. N. Marshall and F. F. Romanow*, page 405.  
 Microphones, Carbon, and Other Granular Resistances, Spontaneous Resistance Fluctuations in, *C. J. Christensen and G. L. Pearson*, page 197.  
*Molina, E. C.*, A Laplacian Expansion for Hermitian-Laplace Functions of High Order, page 355.

N

Networks, Equivalent, of Negative Grid Vacuum Tubes at Ultra-High Frequencies, *F. B. Llewellyn*, page 575.  
 Noise in Steel Telephone Wires, A Magneto-Elastic Source of, *W. O. Pennell and H. P. Lawther*, page 334.

BELL SYSTEM TECHNICAL JOURNAL

Noise and Vibration, Airplane, Reduction of (a Digest), *C. J. Spain, D. P. Loye and E. W. Templin*, page 626.

Noise, Telephone, and Power Wave Shape, Measurement of (a Digest), *J. M. Barstow, P. W. Blye and H. E. Kent*, page 151.

O

Operational Calculus, An Extension of, *John R. Carson*, page 340.

Oscillations in Systems with Non-Linear Reactance, *R. V. L. Hartley*, page 424.

Oscillations in an Electromechanical System, *L. W. Hussey and L. R. Wrathall*, page 441.

P

Paints, Determination of the Corrosion Behavior of Painted Iron and the Inhibitive Action of (a Digest), *R. M. Burns and H. E. Haring*, page 343.

Pearson, *G. L. and C. J. Christensen*, Spontaneous Resistance Fluctuations in Carbon Microphones and Other Granular Resistances, page 197.

Pennell, *W. O. and H. P. Lawther*, A Magneto-Elastic Source of Noise in Steel Telephone Wires, page 334.

Peterson, *A. C. and R. K. Potter*, The Reliability of Short-Wave Radio Telephone Circuits, page 181.

Physics, Contemporary Advances in, XXX—The Theory of Magnetism, *Karl K. Darrow*, page 224.

Pierce, *R. E. and E. W. Bemis*, A Transmission System for Teletypewriter Exchange Service, page 529.

Poles, Creosoted Southern Pine, The Relation Between Penetration and Decay in, *R. H. Colley and C. H. Amadon*, page 363.

Potter, *R. K. and A. C. Peterson, Jr.*, The Reliability of Short-Wave Radio Telephone Circuits, page 181.

Q

Quarles, *D. A.*, A New Type of Underground Telephone Wire, page 446.

R

Radiation Problems, Some Equivalence Theorems of Electromagnetics and Their Application to, *S. A. Schelkunoff*, page 92.

Radio Telephone Circuits, Short-Wave, The Reliability of, *R. K. Potter and A. C. Peterson, Jr.*, page 181.

Radio Transmission Phenomena Associated with a Cessation of the Sun's Rays, Long-Wave, *Austin Bailey and A. E. Harper*, page 1.

Radio Transmission with Solar Phenomena, On the Correlation of (a Digest), *A. M. Skellett*, page 157.

Radio: A New High-Efficiency Power Amplifier for Modulated Waves, *W. H. Doherty*, page 469.

Radio: Eclipse Effects in the Ionosphere, *J. P. Schafer and W. M. Goodall*, page 162.

Radio: Equivalent Networks of Negative Grid Vacuum Tubes at Ultra-High Frequencies, *F. B. Llewellyn*, page 575.

Reduction of Airplane Noise and Vibration (a Digest), *C. J. Spain, D. P. Loye and E. W. Templin*, page 626.

Resistivity, Earth, and Geological Structure (a Digest), *R. H. Card*, page 167.

Reynolds, *F. W.*, A New Telephotograph System, page 549.

Romanow, *F. F. and R. N. Marshall*, A Non-Directional Microphone, page 405.

S

Schafer, *J. P. and W. M. Goodall*, Eclipse Effects in the Ionosphere (a Digest), page 162.

Schelkunoff, *S. A.*, Some Equivalence Theorems of Electromagnetics and Their Application to Radiation Problems, page 92.

Schelkunoff, *S. A.*, *John R. Carson and Sallie P. Mead*, Hyper-Frequency Wave Guides—Mathematical Theory, page 310.

Shielded Circuits for Minimum High-Frequency Attenuation, The Proportioning of, *E. I. Green, F. A. Leibe and H. E. Curtis*, page 248.

- Shock, Electric, on the Heart, Effect of (a Digest), *L. P. Ferris, B. G. King, P. W. Spence and H. B. Williams*, page 455.
- Short-Wave Radio Telephone Circuits, The Reliability of, *R. K. Potter and A. C. Peterson, Jr.*, page 181.
- Singer, F. J., A. D. Knowlton and G. A. Locke*, Switchboards and Signaling Facilities of the Teletypewriter Exchange System, page 504.
- Skellett, A. M.*, On the Correlation of Radio Transmission with Solar Phenomena (a Digest), page 157.
- Solar Phenomena, On the Correlation of Radio Transmission with (a Digest), *A. M. Skellett*, page 157.
- Southworth, G. C.*, Hyper-Frequency Wave Guides—General Considerations and Experimental Results, page 284.
- Spain, C. J., D. P. Loye and E. W. Templin*, Reduction of Airplane Noise and Vibration (a Digest), page 626.
- Spence, P. W., L. P. Ferris, B. G. King and H. B. Williams*, Effect of Electric Shock on the Heart (a Digest), page 455.
- Sun's Rays, Long-Wave Radio Transmission Phenomena Associated with a Cessation of the, *Austin Bailey and A. E. Harper*, page 1.
- Switchboards and Signaling Facilities of the Teletypewriter Exchange System, *A. D. Knowlton, G. A. Locke and F. J. Singer*, page 504.

# T

- Tandem Operation in the Bell System, *F. M. Bronson*, page 380.
- Telephotograph System, A New, *F. W. Reynolds*, page 549.
- Teletypewriter Exchange Service, A Transmission System for, *R. E. Pierce and E. W. Bemis*, page 529.
- Teletypewriter Exchange System, Switchboards and Signaling Facilities of the, *A. D. Knowlton, G. A. Locke and F. J. Singer*, page 504.
- Templin, E. W., C. J. Spain and D. P. Loye*, Reduction of Airplane Noise and Vibration (a Digest), page 626.
- Transformers, Communication, Improvements in, *A. G. Ganz and A. G. Laird*, page 136.

# U

- Ultra-High Frequencies, Equivalent Networks of Negative Grid Vacuum Tubes at, *F. B. Llewellyn*, page 575.
- Underground Telephone Wire, A New Type of, *D. A. Quarles*, page 446.

# V

- Vacuum Tubes, Negative Grid, at Ultra-High Frequencies, Equivalent Networks of, *F. B. Llewellyn*, page 575.
- Vibration, Reduction of Airplane Noise and (a Digest), *C. J. Spain, D. P. Loye and E. W. Templin*, page 626.

# W

- Wave Guides, Hyper-Frequency—General Considerations and Experimental Results, *G. C. Southworth*, page 284.
- Wave Guides, Hyper-Frequency—Mathematical Theory, *John R. Carson, Sallie P. Mead and S. A. Schelkunoff*, page 310.
- Williams, H. B., L. P. Ferris, B. G. King and P. W. Spence*, Effect of Electric Shock on the Heart (a Digest), page 455.
- Winds, Oblique, on Telephone Wires, Forces of, *J. A. Carr*, page 587.
- Wire, Underground Telephone, A New Type of, *D. A. Quarles*, page 446.
- Wires, Steel Telephone, A Magneto-Elastic Source of Noise in, *W. O. Pennell and H. P. Lawther*, page 334.
- Wrathall, L. R. and L. W. Hussey*, Oscillations in an Electromechanical System, page 441.
